The .22LR Calibre MAS 50 Carbine

269. Right side view of the unsuccessful MAS 50 semi-automatic carbine, calibre .22 Long Rifle. Not adopted, and few sold commercially. Today this arm is a collector's item.
document Charlin

In 1950, *Manufacture Nationale d'Armes de St-Etienne* (MAS) developed a semi-automatic carbine in .22LR calibre, with two objectives:

located ahead of the triggerguard, pivots down to immobilise the firing mechanism and block entry to the triggerguard.
